

160 Series

BOOMERHD 160 SERIES			
Vertical Reach*	up to 11.8m		
Horizontal Reach	up to 17.5m		
Rock UCS	160~320MPa Plus		

* Hammer	orientation	vertica

MODELS	60-60	70-70
Horizontal reach from C/L of mount with hammer vertical (b)*	13.1m	15.1m
Maximum horizontal reach with hammer extended (c)	15.1m	17.5m
Vertical reach below base RL(d)*	9.9m	11.8m

SLEW	
Rotation angle	270° max
	240° recommended
Method	Slew bearing with integral external gear
Drive type	Twin hydraulically driven gearboxes
Torque	287 kNm

CONSTRUCTION	
Slew frame	High tensile steel
Boom	High tensile steel
Jib	High tensile steel
Hammer bracket	High tensile steel
Pivot pins & bushes	Harden and tempered high tensile steel

GREASING	
Туре	Manual
Boom	Grease nipples on pivot pins, cylinder pins, slew components
Hammer	OEM Cartridge system

FASTENERS	
General	Metric grade 8.8 minimum, zinc plated (except for proprietary components)

All products, specifications and data are subject to change without notice to improve reliability, function, design or otherwise. Information contained herein is for planning purposes only. Please contact Transmin for application specific or certified design data.
